1st DEPARTMENTAL ACADEMIC COMMITTEE MEETING NOTICE

The 1st Meeting of the Departmental Academic Committee, School of Allied Health Care Professions, Presidency University, is convened on 12th November 2026 at 10:30 (Venue: Seminar Hall, Block B) hosted in Offline mode from Presidency University Campus, Itgalpur, Rajankunte, Yelahanka, Bengaluru. Kindly make it convenient to attend the meeting.

AGENDA

Agenda DAC-1.1 To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 15.08.2026.

Agenda DAC-1.2 To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 15.08.2026.

Agenda DAC-1.3 Approval of courses available for registration in the upcoming semester.

Minutes of the 1st Meeting of Departmental Academic Committee

The 1st Meeting of the Departmental Academic Committee, School of Allied Health Care Professions, Presidency University, was convened on 12.11.2026 at 10:30 in Seminar Hall, Block B. The meeting was held in offline mode from the Presidency University campus in Bengaluru.

Members Present:

Sl. No	Name and Affiliation	Role	Signature
01	Dr. Purnima Singh, Head of the Department, School of Allied Health Care Professions	Chairperson	Attended Online
02	Dr. Veena C.S, Professor, Dept. of ECE, SoE	External Member	Attended Online
03	Ms Apoorva Shetty, Member Secretary (DAC), School of Allied Health Science	Member Secretary	Attended Online

The Chairperson welcomed all the members. The member secretary delivered the opening remarks and deliberated on the following agenda points.

Agenda DAC-1.1 To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 15.08.2026.

Discussion:

The Member Secretary presented the minutes of the 1st Departmental Academic Committee meeting held on 15.08.2026 for approval. Members reviewed the minutes agenda-wise, including the discussion and resolutions recorded for each agenda item of the 1st meeting. The committee considered the minutes carefully and confirmed that the minutes accurately reflect the deliberations and decisions of the meeting held on 15.08.2026. Members agreed that the approved minutes should be circulated to all members and filed in the department record. No major corrections were proposed, and members agreed that the minutes of the 1st meeting held on 15.08.2026 may be approved as the true record of the meeting.

Recommendations:

The committee approved the minutes of the 1st Departmental Academic Committee meeting held on 15.08.2026 as the true record of the meeting held on 15.08.2026. The Member Secretary was directed to circulate the approved minutes to all members and file the approved minutes in the department record.

Ref. Document: Annexure DAC-1.1

Agenda DAC-1.2 To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 15.08.2026.

Discussion:

The Member Secretary presented the Action Taken Report (ATR) on the action items arising from the 1st Departmental Academic Committee meeting held on 15.08.2026. Members reviewed the action taken on each item, the persons responsible, and the target dates recorded in the Action Taken Report. The committee considered the progress reported in the ATR and noted that the completed actions were implemented as decided in the meeting held on 15.08.2026. Members discussed the action items that are in progress and agreed that the remaining actions should be completed within the target dates recorded in the Action Taken Report. Members also agreed that the persons responsible should report the completion of the remaining action items to the Member Secretary.

Recommendations:

The committee approved the Action Taken Report (ATR) on the action items of the 1st Departmental Academic Committee meeting held on 15.08.2026. The persons responsible were directed to complete the remaining action items within the target dates recorded in the Action Taken Report and report the completion to the Member Secretary.

Ref. Document: Annexure DAC-1.2

Agenda DAC-1.3 Approval of courses available for registration in the upcoming semester.

Discussion:

The Member Secretary presented the list of courses available for registration in the upcoming semester for consideration and approval. The list placed before the committee and recorded as Annexure 02 comprised 6 courses available for registration in the upcoming semester, namely Advanced Calculus, Linear Algebra, Differential Equations, Numerical Methods, Probability and Statistics, and Mathematical Modelling, with credits and prerequisites as recorded in Annexure 02. Members reviewed the courses available for registration, including the course titles, credits, prerequisites, and the semester in which the courses are offered. The committee considered the courses available for registration and discussed the eligibility of students for registration in the upcoming semester. Members agreed that the 6 courses available for registration in the upcoming semester as listed in Annexure 02 are suitable for offering in the upcoming semester and may be approved for student registration. Members also agreed that the approved courses available for registration should be published for students and students should be informed about the registration in the upcoming semester.

Recommendations:

The committee approved the 6 courses available for registration in the upcoming semester, namely Advanced Calculus, Linear Algebra, Differential Equations, Numerical Methods, Probability and Statistics, and Mathematical Modelling, as listed in Annexure 02 placed before the committee. The Member Secretary was directed to publish the approved courses available for registration as listed in Annexure 02 and inform students about the registration in the upcoming semester.

School of Information Science

CSA4708 REINFORCEMENT LEARNING

CA 2 EXAMINATION ANNOUNCEMENT

Method of Assessment: Presentation **Maximum Marks: 15**

Semester: III **Sec:** 3MCA01 to 3MCA06 **Program:** MCA

Instructor In-Charge: Dr. S. Krithika

As part of CA 2, of the course **CSA4708 REINFORCEMENT LEARNING** is scheduled on 13th November, 2026, **Friday at 10.50AM to 11.45AM**. The conduction of Exam by School and the students are required to develop a **project or game-based application** by applying the concepts covered in **Module 3 – Temporal Difference (TD) Learning**,

The portions of CA2 exam for the course CSA4708- REINFORCEMENT LEARNING are as follows:

Temporal Difference Learning Techniques [Analyse]

Temporal difference learning: TD Prediction, TD Control: On-policy TD control – SARSA, computing the optimal policy using SARSA, Off-policy TD control – Q learning, computing optimal policy using Q learning, Examples, Difference between SARSA and Q-learning, Comparison of DP, MC and TD methods.

INTSTRUCTIONS TO STUDENTS:

Project Development and Presentation (Module 3)

Project Guidelines:

1. Students must form teams of **5 members per team**.
2. Each team must develop a project or game-based application using any programming language of their choice (Python, Java, C++, etc.).
3. Each of the **5 teams must select a unique application or problem statement**. Repetition of project ideas across teams is not allowed.
4. The project must demonstrate the practical application of at least one of the following concepts:
    - TD(0) Prediction
    - SARSA Algorithm
    - Q-Learning Algorithm

5. Students must prepare a PowerPoint presentation explaining the following:
    - Introduction and objectives of the selected project.
    - Problem statement and real-world application.
    - Explanation of the Reinforcement Learning concept used.
    - Algorithm and step-by-step working methodology.
    - System architecture or workflow diagram.
    - Implementation details, including important code snippets.
    - Project execution/demo with sample outputs.
    - Results, observations, and conclusion.

Presentation Guidelines:

- Each team will be allotted **10 minutes** for the presentation, including the project demonstration.
- Every team member must actively participate and present a portion of the work.
- All team members should have a clear understanding of the algorithm and its implementation.
- The project must be implemented and demonstrated during the presentation. PPT-only presentations will not be considered sufficient.

Rubrics for the Mark Distribution:

S. No.	Evaluation Criteria	Marks
1	Concept Understanding and Algorithm Explanation	5
2	Project Implementation and Demonstration	5
3	PPT Presentation and Team Participation	5
	Total	15

No retest or alternative presentation will be conducted. All team members must attend and participate on the scheduled presentation date.

Minutes of the 1st Meeting of Departmental Academic Committee

The 1st Meeting of the Departmental Academic Committee of the Department of Artificial Intelligence and Robotics, School of Artificial Intelligence and Advanced Computing, Presidency University, was convened on 10.11.2026 at 10:30 in Seminar Hall, Block B. The meeting was held in offline mode from the Presidency University campus in Bengaluru.

Members Present:

Sl. No	Name and Affiliation	Role	Signature
01	Dr. Shakkeera L, Professor & Dean, School of Artificial Intelligence and Advanced Computing	Chairperson	Attended Online
02	Dr. Poonam Nilesh Yadav, Member Secretary (DAC), Artificial Intelligence and Robotics	Member Secretary	Attended Online
03	Dr.Sekar R, Associate Professor	External Member	Attended Online

The Chairperson welcomed all the members. The member secretary delivered the opening remarks and deliberated on the following agenda points.

Agenda DAC-1.1 To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 13.08.2026.

Discussion:

The Chairperson placed the Minutes of the 1st Departmental Academic Committee meeting held on 13.08.2026 before the committee for approval of the MoM. Members reviewed the attendance, deliberations and resolutions of the 1st Departmental Academic Committee meeting held on 13.08.2026. Dr. Shakeera L confirmed that corrections in the MoM regarding AI-301 were incorporated in the circulated MoM. The circulated MoM was verified, no further amendments were proposed, and the MoM was found correct for approval. The committee noted that the Chairperson and Member Secretary are authorized to sign the approved MoM.

Recommendations:

Resolved to approve the Minutes of the 1st Departmental Academic Committee meeting held on 13.08.2026. The MoM held on 13.08.2026 was confirmed and the Chairperson and Member Secretary were authorized to sign the MoM.

Ref. Document: Annexure DAC-1.1

Agenda DAC-1.2 To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 13.08.2026.

Discussion:

The Member Secretary presented the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 13.08.2026 for approval of the ATR. The Action Taken Report covered the BOS proposal forwarded on 02.09.2026 which was completed, the AI and Robotics Lab upgradation where purchase orders were issued and delivery is expected by 30-11-2026 which is in-process, and the guest lecture series where two sessions completed in September which was completed. The committee reviewed the Action Taken Report and ATR actions. The Coordinator for the AI and Robotics Lab will submit the completion report by 30-11-2026 at the next DAC meeting and members noted the ATR.

Recommendations:

Resolved to approve the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 13.08.2026. The ATR was noted and the Coordinator will submit the completion report by 30-11-2026.

Ref. Document: Annexure DAC-1.2

Agenda DAC-1.3 Approval of courses available for registration in the upcoming semester.

Discussion:

The Head of Department presented the courses available for registration in the upcoming semester for approval of the courses. The courses available for registration in the upcoming semester include CSE-415, CSE-418 and AEC002 for the upcoming semester. The committee discussed the courses available for registration, the course codes CSE-415 and CSE-418, and registration for the upcoming semester. The course CSE-415 Machine

Learning with 4 credits and prerequisite DSA was discussed, and the course CSE-418 Generative AI was discussed. The course AEC002 Environmental Science was discussed for registration in the upcoming semester. The courses were found suitable for registration and available for approval.

Recommendations:

Resolved to approve the courses available for registration in the upcoming semester. The courses CSE-415, CSE-418 and AEC002 were approved for registration in the upcoming semester.

Minutes of the 2nd Meeting of Departmental Academic Committee

The 2nd Meeting of the Departmental Academic Committee of the Department of Artificial Intelligence and Robotics, School of Artificial Intelligence and Advanced Computing, Presidency University, was convened on 09.11.2026 at 10:30 in Senate Hall. The meeting was held in offline mode from the Presidency University campus in Bengaluru.

Members Present:

Sl. No	Name and Affiliation	Role	Signature

The Chairperson welcomed all the members. The member secretary delivered the opening remarks and deliberated on the following agenda points.

Agenda DAC-2.1 To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026.

Discussion:

The committee reviewed and discussed the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026 for "To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026.". The Chairperson confirmed quorum with 5 members present, the Member Secretary read the previous minutes dated 12 June 2026 circulated on 10 November 2026, noted the correction on agenda numbering suggested by the Chairperson, verified attendance of the External Member, and deliberated on the approval of the minutes for record and continuation of pending curriculum matters.

Recommendations:

Resolved to approve the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026 for "To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026." as circulated, incorporating the correction on agenda numbering noted in the discussion and confirming the record for the next DAC meeting.

Ref. Document: Annexure DAC-2.1

Agenda DAC-2.2 To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 12.06.2026.

Discussion:

The Member Secretary presented the Action Taken Report (ATR) on decisions from the 1st DAC meeting held on 12.06.2026 for "To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 12.06.2026." for consideration and approval, including the status of curriculum revision completed for 3 courses, course plan approvals for the upcoming semester, and the pending action on audit course offerings. Members reviewed the ATR document circulated as Annexure 02, noted that the audit course list is pending student interest confirmation, and deliberated on the approval of the ATR and the follow-up required for the pending actions.

Recommendations:

Resolved to approve the Action Taken Report (ATR) of the 1st DAC meeting held on 12.06.2026 for "To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 12.06.2026." as presented and to carry the pending actions on audit course offerings noted in the discussion to the next meeting for follow-up by the Member Secretary.

Ref. Document: Annexure DAC-2.2

Agenda DAC-2.3 Curriculum and course outcome review

Discussion:

The committee discussed the curriculum structure for the upcoming semester and the attainment of course outcomes for "Curriculum and course outcome review". Members reviewed the CO-PO mapping data and attainment analysis for the last semester for Data Structures and Cloud Computing, noted attainment below 60 percent for CO2 in Data Structures and Cloud Computing, and deliberated on corrective measures including tutorial sessions for Data Structures and revised assessment rubrics for Cloud Computing.

Recommendations:

Resolved to approve the curriculum structure and course outcome measures for "Curriculum and course outcome review" as discussed, and to implement tutorial sessions for Data Structures and revised assessment rubrics for Cloud Computing as corrective measures deliberated.

Ref. Document: Annexure DAC-2.3

Action Items:

Agenda No	Action(s) to be Taken	Person(s) Responsible	Target Date
1	Circulate the approved minutes to all members.	Member Secretary	30.11.2026

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND ROBOTICS
Annexure DAC-2.1

To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026.

The committee reviewed and discussed the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026 for "To consider the approval of the MoM of the 1st Departmental Academic Committee meeting held on 12.06.2026.". The Chairperson confirmed quorum with 5 members present, the Member Secretary read the previous minutes dated 12 June 2026 circulated on 10 November 2026, noted the correction on agenda numbering suggested by the Chairperson, verified attendance of the External Member, and deliberated on the approval of the minutes for record and continuation of pending curriculum matters.

SCHOOL OF ARTIFICIAL INTELLIGENCE AND ADVANCED COMPUTING
DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND ROBOTICS
Annexure DAC-2.2

To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 12.06.2026.

The Member Secretary presented the Action Taken Report (ATR) on decisions from the 1st DAC meeting held on 12.06.2026 for "To consider the approval of the Action Taken Report (ATR) of the 1st Departmental Academic Committee meeting held on 12.06.2026." for consideration and approval, including the status of curriculum revision completed for 3 courses, course plan approvals for the upcoming semester, and the pending action on audit course offerings. Members reviewed the ATR document circulated as Annexure 02, noted that the audit course list is pending student interest confirmation, and deliberated on the approval of the ATR and the follow-up required for the pending actions.

Annexure DAC-2.3

Curriculum and course outcome review

The committee discussed the curriculum structure for the upcoming semester and the attainment of course outcomes for "Curriculum and course outcome review". Members reviewed the CO-PO mapping data and attainment analysis for the last semester for Data Structures and Cloud Computing, noted attainment below 60 percent for CO2 in Data Structures and Cloud Computing, and deliberated on corrective measures including tutorial sessions for Data Structures and revised assessment rubrics for Cloud Computing.

1. Meeting details

Meeting	1 of 2026-27
Date	10.11.2026
Time	10:30 to 12:00
Venue / mode	Seminar Hall, Block B · Offline
Conveyed by	Dr. Poonam Nilesh Yadav (Member Secretary (DAC), Artificial Intelligence and Robotics)
Chairperson	Dr. Shakkeera L (Professor & Dean, School of Artificial Intelligence and Advanced Computing)

2. Agenda proposed for approval

Sl. No.	Agenda item
01	Review and approval of minutes of the previous meeting.
02	Action Taken Report (ATR) - Review of actions taken on decisions from the previous meeting.
03	Approval of courses available for registration in the upcoming semester.

3. Members proposed for the meeting

Sl. No.	Name and designation	Role	Email
01	Dr. Shakkeera L, Professor & Dean, School of Artificial Intelligence and Advanced Computing	Chairperson	shakkeera.l@presidencyuniversity.in
02	Dr. Poonam Nilesh Yadav, Member Secretary (DAC), Artificial Intelligence and Robotics	Member Secretary	poonam.nilesh@presidencyuniversity.in

4. Declaration and signatures

The Member Secretary confirms that the agenda, the members and the meeting arrangements above have been prepared for the Departmental Academic Committee. The Chairperson approves the agenda and the members for the meeting.

HACKATHON UI
MOCKED APIs

Find your people. Find your next event.

Slide 2

knot

PROBLEM STATEMENT & UNDERSTANDING

02 / 06

The problem is not a lack of events.
It is a broken participation journey.

People discover in one place, verify in another, register elsewhere—and organizers lose the relationship after the event.

01

DISCOVER

Fragmented information

Events are scattered across platforms, websites, posters and forwarded chats.

02

EVALUATE

Fit is hard to judge

Location, schedule, price, skills, age and team rules are checked separately.

03

PARTICIPATE

Registration truth gets lost

An outbound click, pending application and confirmed seat are different outcomes.

04

RETURN

The relationship ends

Updates, attendance, feedback and the next relevant event are disconnected.

WHAT KNOT CONNECTS / ONE PARTICIPATION LOOP

Discover

Map + filters
Source-linked details

→

Assess fit

Eligibility + skills
Teams + deadlines

→

Participate

Native registration
External handoff states

→

Return

Check-in + community
Projects + series

Trust invariant: an external click never becomes a registration or attendance record.

KNOT'S PRODUCT THESIS

One connected
loop.

Source provenance, consent and honest evidence at every handoff.

INDIA-FIRST / BENGALURU + ONLINE

Aggregation alone is not the differentiator. The differentiator is the connected, trustworthy journey.

Slide 3

knot

TECHNICAL APPROACH

03 / 06

A trust-first architecture—with visible activation boundaries.

React + TypeScript product experience, a repository-native agent, and Supabase services designed for authorized cloud operation.

EXPERIENCE

React 19 + TypeScript

Vite • responsive routes
Discover • Map • My Plan • Studio

PRODUCTION UI WORKS

→

PRODUCT DOMAIN

Participation + operations

Native registration • waitlists
QR • Q&A • projects • interests

LOCAL FLOWS VERIFIED

→

CLOUD FOUNDATION

Supabase services

Auth • Postgres • RLS • Storage
Edge Functions • Realtime design

ACTIVATION INCOMPLETE

TYPESCRIPT AGENT / PERMISSIONED INGESTION PIPELINE

Reviewed inputs

→

Permission + robots

→

Normalize + dedupe

→

Source / human review

→

Canonical records

Bounded Devfolio dry-run: 4 normalized records in memory • no DB writes • deployed Hackathon APIs currently HTTP 500

Unknown stays unknown

Click ≠ registration

Review before publication

Guest analytics aggregate-only

Optional providers—Resend, Razorpay, WhatsApp Cloud and LiveKit—remain activation/E2E verification items, not claimed live capabilities.

Slide 4

knot

FEASIBILITY & VIABILITY

04 / 06

Strong product feasibility.
Production activation is the remaining gate.

The latest audit separates working software from cloud, live-source and provider claims.

DISCOVERY + MAPS

LIVE UI

14 checked routes rendered; filters and navigation work.
Map: 7 markers + 20 tiles. Catalog remains local/fallback.

PARTICIPATION + STUDIO

LOCAL

Native registration, waitlists, QR/check-in, Q&A and projects have meaningful local coverage.

HACKATHON EXPERIENCE

MIXED

42/42 UI checks pass with mocked APIs. Production list, run and status functions fail.

SOURCE AGENT

PARTIAL

Devfolio: 4 normalized in memory. Unstop: 0. No agent tables or persisted runs.

CURRENT PRODUCTION TRUTH

What judges should know

Public routes

RENDER

Browser cloud sync

NOT OBSERVED

Hackathon APIs

HTTP 500

Agent tables

REPORTED DEPENDENCY
VULNERABILITIES

OPEN REGRESSION

Repeatable minor-identity privacy failure

Audit basis: main@8837a75 • 06 Nov 2026 • adults-only interim scope • approved sources only • no invented traction

Slide 5

knot

IMPACT & BENEFIT

05 / 06

Impact and benefit—measured without inflating the evidence.

Expected value is clear; pilot metrics—not simulated counters—must establish actual outcomes.

01 / PARTICIPANTS

Less search friction

• Nearby + online discovery with useful filters.
• Fit, eligibility, deadlines and source context.
• Interests, plans, registrations and attendance in one place.

MORE INFORMED PARTICIPATION

02 / ORGANIZERS

Less operational fragmentation

• Quick Post or the full event studio.
• Approvals, waitlists, QR/check-in, Q&A and updates.
• Projects, feedback, series and next-event return.

STRONGER EVENT OPERATIONS

03 / COMMUNITIES

Trust that compounds

• Follow topics and organizers without noisy aggregation.
• Consent gates, reporting and privacy thresholds.
• Repeat participation from verified native attendance.

MORE RELEVANT CONNECTIONS

IMPACT MEASUREMENT / INSTRUMENT THE REAL JOURNEY

Relevant event

→

Save / follow

→

Confirmation or
external self-report

→

Organizer
check-in

→

Eligible 60-day
return

Pilot metrics: time to relevant event • confirmation + check-in rates • organizer time to publish • eligible 60-day return

Public browsing • map/list parity • responsive mobile • aggregate-only guest analytics • no pilot percentages claimed as achieved

Slide 6

knot

COMPARISON WITH EXISTING PLATFORMS

06 / 06

How Knot differs from existing platforms.

The unique feature is the connected participation loop—not aggregation alone.

CAPABILITY

EVENT AGGREGATORS
Brabble / listings

HACKATHON PLATFORMS
Devpost / Unstop

RSVP COMMUNITIES
Meetup / local groups

KNOT
Connected participation

Hyperlocal + online

Varies; often list-led

Event-focused

Local groups; varies

Radius/map + interests, skills and eligibility

Source provenance + review

Source links; depth varies

Primarily first-party

Primarily first-party

Canonical record + source ledger + human review

Registration truth

Mostly outbound handoff

Native registration

Native RSVP; external varies

Handoff ≠ confirmation ≠ verified attendance

Operations + return

Usually outside core

Submissions + judging

Group recurrence

Check-in, Q&A, projects, series and return

Privacy + eligibility

Platform-specific

Event rules; platform-specific

Platform-specific

RLS design, consent gates and aggregate-only guest analytics

KNOT'S UNIQUE
COMBINATION

Source-linked discovery + fit + registration truth + operations + consented return.

Find your people. Find your next event.

Category-level comparison; features vary by platform, region and event. No exhaustive competitor audit is claimed.

To: syedsuhailahamed.m26@gmail.com

Dear Syed Suhail Ahamed M and Team NeXGen Coder's,

Congratulations! 🎉

We are delighted to inform you that your team has successfully qualified for the Final Round of VecnaVerse Hackathon 2026.

Your hard work, creativity, and dedication have brought you one step closer to the final victory. We look forward to seeing your innovative ideas and solutions in action!

Final Round Details:

• Dates: 5th and 6th November 2026
• Mode: Online

Important Instructions for Finalists

1. Forward this email to all your team members.
2. Join the official Finalists WhatsApp Group using the link below.
3. Ask all your team members to join the group as well.

Join the Finalists WhatsApp Group:
https://www.google.com/url?q=https://chat.whatsapp.com/HbKvzROyQfkIPqw32DK2XT?s%3Dsh%26p%3Da%26iam%3D2&source=gmail&ust=1793806522078000&sa=E

All important updates regarding the final round, including the schedule, meeting links, and further instructions, will be shared in the finalists' WhatsApp group.

Please ensure that every team member joins the group and stays updated.

Once again, congratulations on this achievement! We wish you the very best for the final round.

Best regards,
Team VecnaVerse 2026
